EDUCATION

B.Tech in Computer Science and Engineering - 8.6 CGPA <i>Pranveer Singh Institute Of Technology</i>	Nov. 2021 – July 2025 <i>Kanpur, Uttar Pradesh</i>
Intermediate - 90.8 percent <i>St. Jude's College</i>	2020 <i>Unnao, Uttar Pradesh</i>
High School - 74.8 percent <i>St. Jude's College</i>	2018 <i>Unnao, Uttar Pradesh</i>

PROJECTS

VibeSync <i>Python, React.js, MongoDB, Node.js, NLTK, TensorFlow, Scikit-Learn</i> - Achieved 83% accuracy with sentiment classification, ensuring reliable detection of positive, negative, and neutral sentiments. - Integrated secure API for sentiment classification in social media platform and chat applications, enhancing automated decision-making. - Deployed the model with real-time sentiment analysis capability, allowing apps to track customer feedback and public opinion instantly.	Mar. 2024 – Present
Credit Card Fraud Detection <i>Python, Scikit-learn, Pandas, Numpy, TensorFlow</i> - Developed and fine-tuned a logistic regression-based machine learning model achieving an 92% accuracy rate in predicting credit card fraud. - Reduced false positives by 16%, improving transaction approval rates for legitimate customers. - Successfully handled highly imbalanced datasets (e.g., 99:1 ratio of legitimate to fraudulent transactions) using advanced resampling techniques.	Aug. 2024 - Sept. 2024
MovieVerse <i>MongoDB, React.js, Python, REST API, TailwindCSS</i> - Developed a hybrid recommendation system combining content-based filtering (using movie metadata such as genres, directors, and actors) with collaborative filtering (analyzing user interactions and preferences). - Optimized algorithm performance by preprocessing user and movie datasets, reducing latency in generating personalized movie recommendations. - Achieved real-time recommendation delivery using asynchronous API calls and caching mechanisms to minimize server response time.	Aug. 2024 - Oct. 2024

TECHNICAL SKILLS

Languages: C/C++, Python, MySQL, JavaScript, HTML, CSS.
Frameworks: React.js, Node.js, Express.js, Mongoose, TailwindCSS.
Developer Tools: Git, VS Code, Figma, PyCharm, Jupyter Notebook, Google Colaboratory, Postman, Compass.
Libraries: Pandas, NumPy, Matplotlib, TensorFlow, Scikit-Learn.

COURSES AND CERTIFICATIONS

Supervised Machine Learning: Regression and Classification | *Coursera* | Issued 09-2024 | [🔗](#)
Advanced Learning Algorithms | *Coursera* | Issued 09-2024 | [🔗](#)
Unsupervised Learning, Recommenders, Reinforcement Learning | *Coursera* | Issued 10-2024 | [🔗](#)
The Complete 2023 Web Development Bootcamp | *Udemy* | Issued 02-2023 | [🔗](#)
Online Summer Training Program on Python | *Infosys* | Issued 10-2023 | [🔗](#)
Programming with C and C++ | *Internshala* | Issued 06-2022 | [🔗](#)

ACHIEVEMENTS

LeetCode: max(1832) rating with best rank 834 in Biweekly Contest 121. Solved 900+ problems. - [Link](#) [🔗](#)
Hackerrank: 6 stars in problem solving, 5 stars in C/C++. - [Link](#) [🔗](#)
GeeksforGeeks: Secured the 49th position in the Contest's monthly leaderboard in the month of April.
College Assessment: Secured the 3rd rank in internal college coding contest in third year.
